CT157
WIRELESS WALL MOUNTED SWITCH
Instant Audio/Visual Alerts

Simple Operation, User-Programmable Alerts, Easy Installation

The CT157 Pull Down Panic Button is a compact, wall-mounted, wireless transmitter that can initiate audio/visual emergency alerts, activate pre-programmed voice messages through wireless PA speakers, or send a detailed text message to wireless LED message boards.

The CT157 is designed to function as a standalone device or as part of a Visiplex's paging base station. When used in a standalone configuration, the CT157 can directly initiate audio/visual emergency alerts, activate pre-programmed voice messages through wireless PA speakers, or send a detailed text message to wireless LED message boards. When operating as part of a paging base station, the CT157 can, in addition to the above, send SMS text message to staff member cell phone and provide full supervision capabilities to ensure reliable operation at all times.

Equipped with a built-in, long lasting Lithium battery, the CT157 will provide years of maintenance-free operation, while offering wireless functionality supervision.
