

VS1503 - Wireless Alphanumeric LED Display

Time Display Mode

Key Features:

- Two-Line Alphanumeric Display Format
- Text Scrolling
- Alternate Time Display
- Wall or Ceiling Mount
- Supports Multiple Display Effects

The VS1503 Wireless Alphanumeric LED Display that provides easy time and message viewing to accommodate a wide variety of application environments.

The VS1503 supports 6 activation codes (ID's) for individual activation or membership activation in 5 separate groups. Creating groups provides the ability to activate multiple devices using a single transmission from a main wireless paging controller, such as the **VS4800** or **VNS5100**.

The VS1503 can be set to default time display mode. In this mode, the VS1503 switches to alphanumeric message mode only when a text message is received. When the text message lifetime elapses, the VS1503 reverts back to time display mode.
